

UNIVERSITY OF  
COPENHAGEN

A two year postdoc position is available at The Department of Geosciences and Natural Resource Management, University of Copenhagen, starting May the 1st 2013 or soon thereafter.

The postdoc will become part of the team at the Department of Geosciences and Natural Resource Management involved with the [VOLANTE](#) project (1 professor, 3 associate professors and 1 PhD). The postdoc will cover two main tasks. Half of the time will be dedicated research directly related to the Departments tasks within the

### [VOLANTE](#)

project – especially within Work Package P-1 (Decision making at the local level: understanding land transformation processes) and Work Package P-2 (Policy effects, interaction and institutions). The remaining time can be used to conduct research within the overall themes and framework of the

### [VOLANTE](#)

project on topics selected by the postdoc. An indication of research plans should be included in the application. A possible research topic is to analyze the full Danish agricultural register (GLR) covering a period of 15 years. The register holds detailed spatial information on e.g. the revealed preferences of farmers with respect to crop choice and uptake of agro-environmental schemes.

Contact persons: Anne Gravsholt Busck, [agb@geo.ku.dk](mailto:agb@geo.ku.dk)

The application, in English, must be submitted electronically via [http://www.ku.dk/english/available\\_positions/vip/](http://www.ku.dk/english/available_positions/vip/)

### [Postdoc in Cultural Landscape Geography](#)

The deadline for applications is April the 8th 2013.
